Hi all,

I am taking this with me to Denver with the hopes that I can get through the whole thing and get comments back to the Janice and Andrew so we can get through ERC soon. I have attached the files for your convenience (they were on sharepoint but I didn't want to do my review on there). We should coordinate our comments before sending them to the team.

The files consist of the following:

- toxicological review (for review)
- supplemental information (for review)
- summary of ERC comments (to aid in review and to help facilitate a quick ERC close-out)
- summary of changes made since the ERC meeting (to aid in review and to help facilitate a quick ERC close-out)
- Summary of TBA hazards (to aid in review and to help facilitate a quick ERC close-out)
- High level TBA outline, comparing with ETBE (FYI and to aid the teams in being consistent between the two assessments, ETBE is taking the lead from TBA)

Thanks,
Samantha
